*A Guide to pulling off the infamous Cooper  
skyjacking*

So, you wanna be D.B. Cooper...

Fortunately, you chose the right skyjacker's footsteps to follow. Did you know that the D.B. Cooper case is the only unsolved hijacking case in U.S. history? Although, whether or not he survived is another story. But, you seem willing to take that risk

in view of the fact that you've procured this chancy handbook.

In this booklet, you'll ascertain the step-by-step process of a successful hijacking for the purpose of riches.

**!** Warning: Technology, police, and FBI advances have changed dramatically over the last 40 years making a Cooper copycat mission a vastly unachievable task.

*Step 1:* Follow the *Code of Cooper* (Seen on inner flip-page).

*Step 2:* Obtain a *fraudulent identification*.

To get more information on the story of D.B. Cooper, find the author's other texts including "Nerves of Steel" (found in Stout News) and the profile William Gossett: The One That Got Away. Available online @ [www.AlexStoutIncredibleWriter.com](http://www.AlexStoutIncredibleWriter.com).

## Code of Cooper:

### Rule #1: Don't Get Caught!

\*All other rules are to sustain Rule #1

### Rule #2: Work Alone. Trust No One.

### Rule #3, The Robin Hood Rule: Be Kind & Charming. Spare Lives.

### Rule #4: No Guns...Period.

### Rule #5: Leave NOTHING behind!

### Rule #6: Wear Sweet Aviators!

Step 3: Choose a flight close to *National Borders* between Mexico and the U.S.

Step 4: Wear a *disguise*. Party stores should have sufficient supplies.

Step 5: Obtain a standard *briefcase*.

Step 6: Make an *artificial bomb*:

Notice: It would be best to fabricate the artificial bomb at home. Bombs are highly frowned upon in airports.

You'll need:

- Paper lunch bags
- Red construction paper
- Lots of Elmer's Glue

Procedures:

- Roll five paper lunch bags together really tightly
- Tightly wrap ten sheets of red construction paper around the rolled paper bags.
- Using one more sheet of red construction paper, smother it in glue and tightly wrap around the rolled papers.

- Make two more sticks

- Fill the ends with glue.

- Using wire from your neighbor's car stereo, place wire in the ends of the sticks of artificial dynamite.

- Bind the sticks together using some of the leftover wire.

(option) Add a stop watch to the side of the bundle of dynamite for a blood-curdling effect!

Step 7: Place your new *artificial bomb* into the briefcase.

You are ready to board the plane!

Remember! Always abide by the Code of Cooper (Seen on Page 5)!

Step 8: Once the plane has steadied out in the air, *notify the stewardess* of your bomb (don't tell her it's artificial).

Step 9: Once you begin communications with the FBI, *lay out your demands* (tell them you'll trade the hostages for your desired sum of money and three or more parachutes)

\*More parachutes ensures a working chute

Step 10: Once the FBI says they'll meet your demands, tell the pilot to *land the plane*.

Step 11: *Trade the hostages* for the loot and *ensure the plane gets refueled*.

Step 12: Since you chose a flight close to the border, demand the pilot to *fly to Mexico City*.

Step 13: *Strap the money* to your body very, very *securely* (use rope from extra chutes).

Step 14: Once you've flown over the border in one piece, tell the pilot to *slow the plane* and *drop the altitude*.

Step 15: Go to the emergency exit. *Open the door* following the instructions provided on the door.

Step 16: *Jump*.

Step 17: Using your arms and legs to control the air that passes your body, *stabilize your fall*.

Step 18: *Pull the chute release* located in front of your right shoulder (chute releases may vary).

Step 19: As you approach the Earth, tuck your legs by bending your knees and *prepare for the hard landing*.

Step 20: *Find the nearest beach* and enjoy your new wealth.

If you adhered to each step precisely, you will be somewhere on the beaches of Mexico, bathing in cash, sipping a margarita.
